**Automated lawn care
for everyone, everywhere.**

Our Story

TaskEasy's genesis was in solving a problem. Ken Davis, Founder and CEO, was a property owner with a modest portfolio dealing with the hassle of managing lawn care across multiple cities. He was sinking countless hours into finding and vetting vendors and then auditing the work to verify performance. Ken discovered inefficiencies in the service industry for people both performing and ordering services.

Ken began developing a method to make buying services for customers — and fulfilling services for vendors — as easy as online shopping. TaskEasy lets customers buy vetted, insured, and guaranteed services instantly.

Since launching, TaskEasy has performed services in more than **12,000 cities**, and across all **50 US states**. TaskEasy works together with landscaping businesses in each area, supporting local industry with over **2,000,000 jobs** performed to date.

We Mow Lawns Everywhere

Pricing

TaskEasy doesn't require deposits, minimum spend, or monthly/annual fees. You pay for exactly what you get: yard care. Each service is billed after the work has been performed and carefully inspected for quality.

Pricing is based on:

- ◎ location
- ft² square footage
- 🚜 services for each property

Our proprietary software digitally measures your property, identifies location, and considers local market rates to provide fair-market pricing.

Our service portal, dedicated support, quality control, and billing automation are built into the price of each service, so what you see is what you get. No hidden fees, no required packages, and no surprises.

Focus on the revenue driving parts of your business. We'll take care of the rest.
